

## Chloroprene In Vitro Model Description

\*File descriptions are included in File\_Description.xlsx

\*Female and male mouse and rat figures are on separate tabs in Graphs in vitro rodent.xlsx

\*Human lung and liver graphs are on separate tabs in Human Graphs.xlsx

\*m-files for simulation are self-contained. Running a simulation file alone will generate outputs for the specific scenario. Outputs will be saved to a unique csv file.

\*No graphs are generated directly within the m-file - data must be copied from csv file to the Excel file.
